

## The Gazelle by Boss Kut

You will love The Gazelles' low compact profile. The front has a pull down door that becomes a paper tray when open and when closed protects your cutter and makes storage and transporting easy. There are pull out trays on each side of the door to store your accessories and extra blades. The Gazelle is a quiet smooth running machine. You will be very pleased with the cutting mat as it is heavy duty and does not warp or bend. You get hundreds of uses without changing your mat. Our blades will cut for a long time before needing to be replaced. Replacement blades and mats are very reasonably priced.
